CORE SKILLS

B2B sales | Requirements synthesis | Project scoping | Business planning | AI adoption | Product delivery | Go-to-market | Market entry | Creator partnerships | Client handover

PROFESSIONAL EXPERIENCE

Founder & Independent Product Consultant

Independent practice / 嘉思特有限公司

Independent practice: Aug 2024 - Present
Company: Feb 2026 - Present

- Independently owned acquisition, requirements synthesis, scoping, negotiations and delivery. Following company formation in February 2026, generated NT$2.7 million in 2026 company revenue to date; average project value was approximately NT$120,000.
- Used AI to extend individual delivery capacity, completing client projects in three days to one week with stable delivery, client referrals and low ongoing maintenance overhead.
- Delivered operational solutions spanning school energy management for 200+ devices, construction operations, space management, electrical-material quotations and dispatch.
- Established 嘉思特有限公司 in February 2026; delivered brand websites and a ten-brand design engagement completed within one week and accepted through design review.

AI Product Development (Part-time)

孔雀魚數位科技

Jun 2025 - Sep 2026

- Supported team product-development discussions and built AI tools for ESG reporting, project-results presentation, matching, transcription and presentations.
- Contributed to e-commerce and iOS/Android collaboration products as a part-time collaborator.

Technical Product Manager

Seasalt.ai

Feb 2024 - Aug 2024

- Translated B2B customer needs into UX flows and PRDs, coordinating development with cross-national teams for an AI chat-agent product.
- Delivered 25+ features and bug fixes in three months through five-day iteration cycles; conducted customer interviews to inform product direction.

PROFESSIONAL EXPERIENCE - CONTINUED

Business Management / Product Management

BenQ

Product Manager: Dec 2021 - Feb 2024
Business Manager Head: May 2023 - Feb 2024

- Led ideaCam development and go-to-market execution, launching in eight countries within ten months.
- Built and led an agile marketing team that reached US$150,000 in monthly revenue with over 70% month-over-month growth; reduced Amazon ACOS from 60% to 13%.
- Collaborated with 100+ influencers, generating 125 media articles in six months without additional media costs.

Senior UX Designer

BenQ

Aug 2019 - Dec 2021

- Designed B2B content-management and e-commerce experiences, including an online user-manual system that increased organic traffic 25-fold in six months.

EARLIER EXPERIENCE

Founder | YS Design Studio

Jan 2018 - Mar 2020

Founded a product, service and brand design consultancy; developed 3+ products through government collaborations and proposed services for Amsalp and Rikulau.

Researcher & Project Leader | NCKU Wish-Making Lab

Sep 2016 - Apr 2018

Conducted design research, prototyping and usability testing on projects including ITRI OLED and GEOSAT drone development.

SELECTED PROJECTS & VENTURES

- Yuanman seafood brand (Sep-Oct 2024): partnered with 11 creators within one month and generated more than NT$100,000 in sales without paid advertising.
- Disaster preparedness (2025): built an app whose related content exceeded 150,000 daily impressions; generated NT$720,000 in monthly disaster-supply sales and a separate NT$320,000 through two vendor collaborations.
- JISTO / Yuanman: developed a Notion-backed content platform and a Google Sheets-connected storefront with product, cart and unpaid bank-transfer order workflows.
